

Offers 3-way IP conference calling

- Auto provisioning
- Uses the latest SIP protocol
- Power always on, even during blackouts

Our featured analog telephone adapter turns standard phones and fax machines into VoIP devices with three-way conference calling, call waiting, transferring and many other capabilities. Plus, it features built-in echo cancellation for crystal-clear sound quality. To meet your time-to-market needs, we offer efficient 10-day delivery, with samples available in just two days. Orders for as few as 10 units are welcome, so send us your OEM/ODM inquiries today.
